

# Know the True God, Know Eternal Life

---

July 15, 2019

**F**alse religion teaches an abominable lie that the true God is looking for any reason to discriminate against us, eliminating us from salvation. Make no mistake, Satan is the human-slayer. Satan only has death to offer. Life is the gift of the Eternal One, the true God.

Imagine a caravan with a happy procession of men, women, and children. These loving figurative sheep nudge one another over rocks, sand, vegetation, and crystalline streams. There is no rain, snow, or hail. Balmy breezes and low clouds, penetrated only by rays of brilliant light showering the cramped road to life, mark our true God's presence.

These bleating gentle sheep are lovingly collected from everywhere. We are a herd size that no human can number and on cramped roads to life all over our earth. Christ provided the sacrifice redeeming life from the path to destruction Satan forced on us. Satan is the firstborn being to the true God and His womb of creation the first Christ. The road to life, now, can include every man, woman, and child on this planet who learns who God is and takes shepherding from Him. Those who refuse God's shepherding will learn obedience later. Regardless of when, all humanity will be living righteously. The acts of death die eternally, and the acts of life eternally rewarded. The Christ and earthly resurrection examples assure us of this.

## Satan has Death to Offer

False religion teaches an abominable lie that the true God is looking for any reason to discriminate against us, eliminating us from salvation. Make no mistake, Satan is the human-slayer. Satan only has death to offer. Life is the gift of the Eternal One, the true God. Despite

sin in our blood, before God's Kingdom arrives, everyone has immortality in God's memory conscience only to Him. In God's Kingdom He resurrects all humanity, sinless, with eternal life.

On God's road to life, our clothes do not wear out and they are what we need for comfort and cover, our loved ones, and new friends for a lifetime surround us. Fruit bearing trees and edible shrubs extend for miles on each side of life's road. Natural beauty never escapes our eyes. On the horizon a crashing shore breaks. Playing otters, seals, porpoise, and dolphins, abound. These leap and squeak in delight at our approach. We enter the Kingdom.

## The Kingdom

What is the true God's Kingdom? It is the earth described by Isaiah and John; beautiful, abundant, perfect and pollution free. Sin no longer exists. Who enters the Kingdom?

1. Those that daily unburden their hearts and minds in prayer to the true God.
2. Those that daily add requests for forgiveness acknowledging their sinful existence and asking for direction in how to follow the standard of conduct lived by the Christ.
3. Those that daily read the Bible searching for clues about the true God's personality so they can discern His voice directing them.
4. Those that remove all forms of fornication from their lives and seek to do works apart from the sin in their blood.

In short, this is every human conceived. Because God does not fail, the Christ's sacrifice is not wasted, and a firstborn son was given for the life of the firstborn son lost.

## Lying and Fornicating, No, No

Do not fornicate! This and lying are the bumbles of our lives that most align us with Satan. The true God knows that we are weak from imperfection (sin). We can walk away from any situation involving fornication or a lie. Just pray for help in the moment of distress.

In Israel, Levite priests removed the excrement from the intestines and placed that on the alter with the other animal sections and fat. In plain terms, the true God gives us relief. When we pray about all that concerns us, confessing our struggles, sins, desires, and most importantly our desire for life, we will feel relief. When we ask for help to avoid fornication or a lie, He will have our backs.

## Why Humans are for Humans

We are many generations from perfection. Adam and Eve became a victim of fornication (Satan) this altered our genetics. A rapid demonstration of what Satan's agents do to human genetics: demons materialised, had sexual intercourse with physical beings and created a violent brutal world of giants. Noah walked on this earth with these violent giants.

Noah, full of faith, built an ark as directed by the true God. The genetic stock that the true God wanted preserved He directed into Noah's ark. The demons of Noah's day; imprisoned. Generations since Noah, the true God has protected us from demons materialising on this earth. To be born from fornication is to be born from Satan. We are the true God's children when we love one another as the true God loves us. The true God's children He shepherds to perfection.

## Sin is in Our Blood

Sin is the imperfection that marks our genetics. It is in our blood. We struggle as a result. Marriage is protection the true God wants for every individual that desires sexual relations. Marriage is protection one against incest. All humanity is from the same human parents. Man and woman do not translate to male and female respectively.

Male and female, two males, or two females may form a married couple. One is masculine and the other is feminine. One with headship and one in subjection, obedient. (Feminine = female or male based on many genetic factors.) The woman, the one who needs protecting - from herself - consents to obedience to the man, the arm of an angel, in marriage. Finding a marriage mate and preserving an existing marriage is between the legally married individuals and God. He makes it possible for us to experience ecstasy in marriage even when we are apart from one another. God hates pornography.

## Condemned

Males or females that choose to sexually exploit individuals are condemned as described in Romans. Celibacy, until marriage, is required of us to avoid sexual fornication. The greatest sign that our times are for the true God to call His sheep was in Jesus. Jesus was the feminine one, first, the womb of creation (mother), brought to life to walk this earth and provide salvation to humankind as a man. The true God understands and loves us.
