Alphabet Soup

I *Imagine if you will an alphabet. Each character maps to a belief system that when combined maps to a Ggod. The Ten Words of God are the Ten Commandments that mapped Israel to the LORD. The law the Levite's did all the sacrificing to keep alive was what embellished the Words, Commandments, so people could follow a MEGA Ba'al, the LORD, and be clean people. S-H-I-T is a belief combination, let's say. K-U-N-T is a belief system, let's say. D-O-U-C-H-E-B-A-G J-A-C-K A-S-S is yet another. People understand a key set of letters as a belief set that forms the way they live from their soul. There is a Ggod that maps to that delivering people the results of believing those characters based on their soul. Some people in a belief set will rise to the top while others enjoy having a life that skirts the Ggod living on the fringe. Some people get to have gold-plated taps in their homes, dive mini-vans, and run roulette tables; respectively, based on the trifacta example. What Satan needed was a religion that was built on the belief system that had no known mapping to any Ggod what so ever. Viola, the Watchtower Bible and Tract Society of Pennsylvania. With this the world was ready to receive mumsy, and she, the non-human mapped thing -- who hated all the Ggods -- became flesh, the total antithesis of everything Lady Wisdom knew to love and appreciate with flesh, the weak vessel, having all the ability under the LORD and Lady Wisdom plan to beautify and grow all creation glorifying Heaven, all Spirit.*

Exalted Excellency the Honourable Mr. Putin President of Russia:

Putin, you know I love you. I do not love debauchery, carelessness, ignorance, or being sick. I do understand that each of these is a judgement call that depends on ones perspective. The poe-tay-toe/toe-tah-toe rule applies. If you have a speck of dust in your eye it can stop you in your tracks meaner than a boulder in the highway. Apply this to the rafter/splinter parable, dear.

As far as I Am concerned the photo you sent Trump advertising him right about everything was fair warning that entering an air war with Russia was suicide for the combined United States air defences, all of it. I already lectured the only way America wins a war with Russia converting the surviving populous into good capitalists is a ground assault of US Marines. *Semper-fi*. Yes, when Reagan built his Star Wars funding we as a nation with its military had already lost in that arena. Sputnik was a great failure to advertise weakness where you have strength.

I defend My personal being so that I Am not being what I deem a debaucher, careless, ignorant, or sick. My ministry opens up so many chapters where individuals stopped seeking answers once Plato died. I do think I would love that Ferrari. That ingeniously sensitive machine I would trust that Ferrari knew best when the transmission needed shifting based on engine demand. That is about the only automatic I could appreciate, and take pride in driving for the sheer pleasure of what the manufacturer assembled. The Jehovah's Witnesses turning the LORD into a Ba'al (after Jesus death he was reassembled in the form that meant He couldn't be a Ba'al ever, according to Satan's masterful plan that turned the LORD into the first perfect Spirit, according to Satan) made the fornication of non-American's moot. This is why I had to fight for a new pathway that preserved a means for people, as flesh, to perfect the Ba'al against all the longings and need that Spirit, under Satan, needed exploit for survival.
