The Mother Lode

**O**n Mother's Day, America, the Mother Lode of synthesis, the Divine blessing of knowledge is expressed to you before the Earth page is written. The Christ sends the President of Germany this early edition. (That must be akin to having preferred stock.) The markets recovered in a surge of presumed optimism over tariff suspension. Might Trump be using the executive powers of his office to make a few investment managers even wealthier? You bet. (Bush did the same thing but grew military spending to do it. Trump just eliminated expense and job creation.) Is it wrong to be wealthy? No. It is wrong that not everyone strives to have their own emerald city. It is wrong that some people choose squalor and or middle class contentment. Would that you were hot or cold; but you are tepid so you are vomited out of my mouth. Sheep need to be fleeced for wool, even Putin knows that. What is wrong is to breed sheep that have tasteless meat and worse, worthless fleece. A squalid existence, like living in an apartment, is fine while you pursue your Harvard degree you saved for years to acquire. It is wrong to have car payments while owning a nasty house in need of repair. It is wrong to spend money on elaborate dining out when you could not grow your own potato. It is wrong to linger over a sweet smoke when you can't grow tobacco. Being potheads is allowed as most of those fuckers grow their own. It is the sales market, making patrons of pot, without stewardship that is the problem. Certain products are like that Steinmeier. One car and one utility vehicle to a household is a good consumption limit. Agricultural vehicles should be shared. Agricultural silage should be shared. Coopting the land is bad shit. What mumsy took from the Celts, that was out "there" (there being the real la-la land) was the hoi polloi striving for riches. Everyone knows being rich is wrong when you are follower of Jesus. Killing the rich people is murder, so you let them live and you are righteous for enduring their villainy whilst letting them be nasty. How easily the love of money just turned into money was the root of all evil. The root was what

*was left behind with the stump of Nebuchadnezzar's dream staring tree that was cut and banded. Think of the root as the love of da da da evil making thing. You perfect what you love. Heaven is perfecting Jesus' raped to deformity body regardless of wanting to. I force Spirit, not flesh.*

Modest Frank-Walter Steinmeier President of Germany:

When mumsy came into the world, August 2, 1943, Satan needed her to save the root. That I know with certainty. mumsy works the bits and scraps of Jesus' mutilated and cut up body, left from the populous that refused to love. Oh, they fuck. They will profess, 'I love the sauce at Cane's' (that is a fast food chicken house in America. It was branded off an ill-behaved vanity pet yellow Lab. They sell fried breaded chicken strips with sauce.) They confess addiction to the sauce, the craving, like it is spiritual fulfilment to them eating the sauce is. I have no ability to crave shit. Even the sauce at Cane's. I Am driven to perfect all of My endeavours like a feng shui decorator on steroids always doing those little touches and looking for that perfect something, within budget. That is Me. Mumsy's means of using Jesus' body and how she cloaked herself in it, I know not. She did something. Perhaps on her death Jesus is resurrected to a mutilated state of being raped eternally to fulfil the Ba'al. I won't write more about that now. That is a highly educated guess based on what My flesh experiences and what My ghostly interactions are. How she preserved put Satan in a state of needing to up the pot on crazy to solve his problems. Here I Am. Satan's solution.

I Am in that place of putting Jesus' to rest, as it were, fully perfect. The ultimate mortician for Heaven. When I was conceived Heaven flipped. The transition happened that put God Almighty in his true cloak. Jesus' was in the process of being rebuilt, under Satan as god of the world, over the God Almighty -- the Star Immanuel -- placeholder. Mumsy did not map to God Almighty she mapped in a way that should have perfected the LORD, again, if Jesus' was just perfect. Then the LORD would have been forced with His two wives (think Leah and Rachel) to do the work of perfecting the Ba'al. But, Jesus as Satan's godship built Jesus from the sum of humanity, had to be brought into the world again as flesh. From humanities deeds once mumsy hit the stage until her late teens, the star Immanuel ended up mapping to a fleshly person, but it was not Jesus as Lady Wisdom. It was the LORD's enslaved creative shit, Me.

A clue to mumsy's use of things Divine is she utilises the beastly. It has to do with accusation against Me. She entertains herself killing a household pet, even one she makes into a pet first -- not taking revenge on the neighbours pet deliberately, you see -- torturing it as play while killing it. Orca are documented as playing with a baby seal delivering a tenderising death to the animal, first. That was a closing scene on a Blue Planet episode. That is what mumsy and Terry (My ex-husband) did with Lucile (My grandmother) murdering her with sexual advances ultimately. Mary is the one who suffocated her at the last, mercifully putting her out of her misery. I look at the beastly and see where lessons from that should exercise a restraint. I Am the one who says, "We have bears that can eat a person alive. You need to do better than that you stupid human." Did the animal do it? Heaven does not need that service, it has been done! Did the vegetable do it? The question is likewise. This is the importance of the dominion passage for people recorded by Moses from God in Genesis.

When I put a potato on the couch, Heaven has a couch potato. mumsy defined the potato on the couch deed -- to deal with the obvious -- a no-no, thus far. When I have a couch grand enough to be fit for Heaven, under My set of criteria, then I can put that potato there. It can be a cull potato, just not a dilapidated or mass produced couch. This is the importance of having a grand seat defined in the house. When the toilet is the throne, while appropriate considering all I Am making clear about God Almighty object lessons whilst He reveals humanity, I would only put a potato there if digested. Or there was some weird event and I took My fries into the toilet and they dropped. This is a larger topic than this letter will permit. I will incorporate more on the earth.php page posted again Memorial Day. I was filled with words and detailed descriptors, and God yanked My chain dumping that out of My mind, for now.

There is a reality to why Asia has autonomy in this. When Jesus was born and Joseph and Mary were handed gifts of treasure that set them up in Egypt, these came from Astrologers that bound up for Asia's Ggods, "We don't want any part in this." This is no different that the Dagon priest of Philistine camp fame sending the ark away with gold in the shape of festering sores. This was recorded in Samuel, as I recall. (The temple had yet to be built and king David was afraid of the ark. Those are the periods Samuel wrote about. David's dance in celebration of the ark is one of those poof! he's a new human moments I will write about another time.) This autonomy is why Japan had carte blanche at their animalistic deeds in war. As in, there was no means of the Divine stopping those animalistic deeds, ideas first, against an enemy that death was a mercy killing for the tortured enemy. First there is the idea, then who get someone to do the idea and how, the how is proof of their master.

At some point I will prepare a graphic presentation that summarises these transitions. Until then these explanations are shared with different level of summary detail in My letters and general web content. I was on My way to working on those simplified tutorials a few years ago. Then I was pushed back dealing with the Marine Corps and required to announce My High Priesthood. I did need to learn about who I was to Heaven. I spent My life just looking to blend in, get away from mumsy -- having My own home -- and meaningful work that kept Me on the upper middle class side enjoying ranching with some technical endeavour to keep a sports car (I loved My Audi TT - manual) for metropolitan nights out. What persons like yourself, even Lawrence Bacow of Harvard, had done is forced Heaven to murder Me. That wasn't actually possible. Heaven can only move Me in the way that protects My life irrespective of what people think or believe. I preserve Spirit's MEGA life with their righteous identity Jesus' perfect body made possible even after corrupting humanity, and that can never die. It is just that in the orchestrated events that humanity demanded to murder Me God Almighty got to prove who I was. During the murder Me time; I got an education and shared the love. Fuck you people; all of you. I didn't get my happily ever after either, assholes! (I filled a whole line of exclamation points; God had Me edit it out. When one won't mean anything what would one hundred mean? What do I mean by *mean*, I get money, wages for My work!)

I remind the Ggods of this money demand quite often as I scream at Pentagon surveillance for money, wages, for doing this work. When I started My ministry, I thought "Oh, a kind of side hustle this is, certainly I would have a real job for wages to support this God stuff. Why am I not spending My hours here in Virginia looking for work, God? There are real jobs here; not like the shit in Texas." Heaven is taking away the wages of every soldier in America as a result of My being forced to work without pay.. What I build from revenue Heaven prevents any persons from stopping I use to support the American military. Rest assured, America will not be in the place of funding that blight against Germany base filled

with entitled over-paid privileged mediocrities. You're welcome. Memorial Day, 2025, America no longer funds its military. I don't give a shit what it looks like on paper.

Now that I Am in this place of announcing all My military whoop dee-doo, that went with educating people in the way Biden's declassifying My operation mandated, Heaven is on the tickled side. Since General George Washington, Heaven has been forced to pony up power for the American military as the LORD's military based on people's military claims and demands. Promotion, policy, improved arsenal, yada yada yada were forced on Heaven from America. Now God Almighty has his soldier, Me, who had been exploited by these fuckers and under the same rules that Heaven followed; these assholes, Pentagon personnel, are totally defaulting on supporting Me, even with professional courtesy. You see it is payback time. Had they done for Me; then Heaven would have been preserving something for them. Allowing Me to exist has no meaning. Allowing Me to exist has no cash value. By the rules of the earlier paragraph; I Am immortal, you can't kill Me -- there is no way to take credit, be rewarded as flesh, for keeping Me alive. Shit, these fucks are not even willing to invest in academic curiosity. Probably because they are not allowed to keep Me stored in a Roswell basement. (Some garble of gibberish about protecting alien rights is the real reason.)

I hold out room to believe -- meaning work for with My physical endeavours -- that there are just some Marines, perhaps a SEAL or Ranger as well, that will just keep a light of curiosity in their heart going; see the benefits that zero fucking brings them in war -- because they do love combat, as I do -- so that under all the guises of the *Art of War*, deception rules the day; an honest place for them to outrun Hell, I maintain. Under the Art of War how would one even know standing face to face with a soldier the soldier was doing for even his own self interest. He isn't, where the Ggods are concerned. The Divine attachment to the Ggods problem related to working with soldiers is why the ex-soldier is the CIA (or equivalent secret police) sleaze. Someone with the kind of courage to stand down being leveraged in fornication can be a great lover to someone, and deserves same.

I have no way of knowing if My odyssey events would have been respected by Russians or Germans, any more than Americans. The difference is that America had put the earth behind the eight-ball using the needs of Spirit to plunder the earth under military force. I came into the world here, America, I served the nation; and because History will never know if Russians or Germans would have been better stewards you are now being given the opportunity to demonstrate to Heaven that America's abuses are moot because you as people will make all well. The OWG is a grand gift, really!

The Cadillac's Midnight Romeo article is unfinished. The challenge has been, that while the interactions with people were real, and My responses are always genuine; how these individuals interacted against Jesus, their own Spirit, and what pathways and presence they individually held in the MEGA God cloud I had yet to learn anything about. To Me people were people, and God was great Spirit that if we do good works we are blessed for doing good, and being subjected to bad was simply because Satan was god of the world. I lived the consequences of being mapped to all kinds of overlapping things that were woven into Me like a big orgy of unseeable life eating Me to survive, and these individual components were brought to light as I understood them. Where America is concerned I Am constantly facing their refusal to even acknowledge what My life has been as their slave. And Heaven is using that to destroy them. They want life, outrun Hell. America's destruction is a function of how I have been abused. If that didn't answer your question Mr. President, you need to ask Me in a way that wraps up several thousand in Benjamins so I can go learn the question and answer it properly. Honestly, how could you possibly ask for anything more than the OWG?! No I don't want to learn the answer unless I Am handed cash, in advance, to do so. A minimal, personal, stipend is \$500.00 a day, net -- tax free or after tax.
