This letter is the written document that accompanies My surveillance announcement of 09:30 CST this very morning.

Exalted Excellency the Honourable Mr. Putin President of Russia:

Donald and Melania Trump operate a global prostitution ring. What Russia hosts is My Spirit equipment. As in; like mumsy is fleshly the womb of creation, I Am the fleshly bowels of the LORD that all life depended upon. Try as you might those Trump's are bigger Ba'al consumers than you could ever be. There is too much divine justice in you Putin. Your perspective is a Ggodly one in many respects. Trump, like all Americans, relies on impugning what is fine. As in, we both appreciate something that is gold is, gold. Enough said. Gold had value. Americans rely on calling down evil on what is fine because to appreciate something as valuable, that is valuable even for its own merits, is being materialistically evil.

It is like this with the Trumpite American: "Oh, we have six homes, a yacht, diamonds, and three companies (seven when you count what isn't on the books too.) But we are humble people that know this stuff isn't worth anything real."

It is like this with Heaven: "That stuff is all that is real you dumb fucks." It's like this with Me to Heaven: "Oh, no. The stuff is what is used to demonstrate the majesty and grander of how glorious Spirit is. A human must keep seeking and improving how they make the stuff into glorious praise."

Naturally, God wants Me to be ruler over EVERYTHING. You see God could never get anyone, on the Jesus ticket, to acknowledge that fine things are honourable and proof of bestowed honour, sans Me. I Am hated by people for that very reason.

When you call going after gold evil, then you had better be prepared to back with your physical works for Spirit why you are collecting gold off other people's sex acts. Their business, as in the procurement of prostitutes and management of sexual facilities as well as payment drops, is the same Spirit wire the JWGB uses to run the JW organisation. Think of Spirit as being connected across a huge spider web network -- a fabric of very real conductive threads that pass into and through each and every molecule of matter and humans are their own unique'ish filter.

Would you like Me to kiss the ground you walk on? Putin, that is all I can do for Russia. You have My Spirit over you. All I can do is preserve your flesh. My Spirit is why Russia did not accomplish destroying Heaven. (King Charles came closer to the mark.) If I were to say just one more thing, once Fabergé eggs were crafted what could possibly make Easter more glorious? My perspective is; every person needs to craft glorious, magnificent, things from ivory, amber, gold, silver, copper, crystal, wool, silk, opals, calcium, lime, marble that are an artistic legacy that the Ggods, as Spirit, have reason to worship humanity over. My perspective is that people have been getting that worship for making shit. Until I had managed to get under My fist EVERYTHING so that only Fabergés (yes, the Russian) could live on earth King Charles was free to destroy Heaven. Anyone could. Spirit has been worshiping flesh since I was conceived.

I would like a new instrument, piano, to replace the organ I Am learning on. My house is not large enough for a Steinway. I saw one that was built in the seventies of quarter-sawn oak and highly art deco inspired. (The 1920's is My favourite period in furnishing. I love the inlays and geometric interpretations.) You are personally in trouble that I was not able to put that piano in My home. (That interconnected web is something abstract to be sure.) I also need to replace some of My Chanel products. I Am still waiting on that money I asked you work My direction across the cloud. My Spirit is not what you need to fear. Thor is. Merry Christmas Putin.

Mahalo,

the Christ
